General instructions

Keep away from direct sunlight

Store in sealed packing: 4-15°C

For soil and seed treatment only

Manufactured by: Ad Terram Treatment Technologies B.V. - Kleingouw 126, 1619 CJ, Andijk, NL

Application guide

Further processing required see application rates for different treatments in the table below. Product is effective at 5×10^{10} CFU/ha which is 1 sachet p/ha. For seed treatment, please contact Ad Terram for detailed application rates per crop.

Treatment type	Application rate	Application method
Seed treatment	Volume depending on crop (% ABRA/ha)	Filmcoating
Soil treatment	1 sachet per 1 Ha mixed in water or other solution ¹	Soil injection or during soil preparation

¹ Other solutions: EXCEPT solutions containing Fungicides. Immediate application required.

Do not apply Otimum ABRA in direct sunlight (UV light)

Wash hands after use and do not breath in dust

Claimed effect: Improves crop yield of broadacre crops

Product specifications

Solid

Product function category

PFC 6 (A) Microbial Plant Biostimulant

Ingredients

CMC 7 - Azospirillum spp.
(Azospirillum Brasilense)
CMC 1 - Dextrose

Strain

Azospirillum
Brasilense

Component material category

7+ Micro-organisms
1 - Virgin material substances and mixtures

Declared contents by count:

10^{10} CFU/g
